

# Dyslexic Advantage STEAM Ingenuity Awards

Deadline May 15, 2022

**DYSLEXIC ADVANTAGE**  
**INGENUITY AWARDS**  
K-12 Dyslexic Students

Please fill out this form in order to submit work for DyslexicAdvantage's STEM / STEAM Ingenuity Awards!

These awards are intended to encourage students in the areas of Science, Technology, Engineering, Art and Design, and Mathematics. Winners typically show some ingenuity in the design or execution of their plans. The judging committee encourages students to seek out advice and experts in the community to improve their final projects. Professionals in STEM / STEAM careers do not work in isolation, but seek out and learn from the feedback of others.

Additional awards are also given for entrepreneurial potential of submitted projects. Does your discovery have commercial potential?

Monetary awards will be given only to US applicants because of the limitations of international regulations, however international applicants may be recognized in our print publications. If submitted a project completed with a team, the submitting member MUST include details of how ideas they contributed to the project in the appropriate section. The ideas and project should have been completed in the current school year (so 2021-2022).

If you have any questions, contact the team at [team@dyslexicadvantage.org](mailto:team@dyslexicadvantage.org).

Student work can be completed as part of a team, however the dyslexic student must have significantly contributed important ideas for the success of the project. All team members should be listed in the pdf, jpg, or doc file uploaded in the project area.

Our File Upload Form supports the following file types: pdf, doc, docx, odt, png, jpg, jpeg, png. You can also include a link to a presentation on Youtube or send a video file.

Good Luck!
